To: Licensed Manitoba Cannabis Retailers  
**RE: Quality Control Issues**

The Liquor, Gaming and Cannabis Authority of Manitoba, working in cooperation with Manitoba Liquor and Lotteries Corporation and Health Canada, has identified quality control issues in respect of cannabis products produced by Bonify.

In accordance with the Terms and Conditions of your retail cannabis licence, you cannot sell cannabis that has quality control issues.

Inspectors from the Liquor, Gaming and Cannabis Authority of Manitoba will be attending at your store and off-site storage locations (if any) to seize all cannabis products produced by Bonify. You will be provided with a receipt to document the cannabis products seized.

You are encouraged to communicate with your customers to recommend return of any unused cannabis products produced by Bonify.

The Liquor, Gaming and Cannabis Authority of Manitoba appreciates your support in protecting public safety. Any questions may be directed to me (ph. 204-927-5309) or Manager Gary Shewchuk (ph. 204-927-5315).

Yours truly,

Corrine Scott  
Director, Compliance
